

Summary

This chapter contains procedures for the valuation of miscellaneous commercial buildings and structures, including stacks, incinerators, towers, drive-in theatre screens, swimming pools, water slides, grandstands, bleachers, coolers, freezers, equipment and mechanical buildings, telephone buildings, air supported/dome structures, and ATM structures.

SAMA's 2011 Cost Guide provides directions for the valuation of property by the cost approach; it does not have the force of law.
