

A

A-depth, 2.1.1 (1-2); 2.1.7 (1-6)

A-horizon - see A-depth

Age-life method

calculation procedure, 3.1.8 (1)

condition rating, 3.1.8 (5-6)

Agricultural land

agricultural land - mixed use, 1.1.4 (1)

arable land, 2.1.1-2.1.9

formulas, rules and principles, 1.1.3 (1)

arable land, 2.1.1 (1)

non-arable land, 2.2.1 (1)

waste land, 2.2.3 (1)

non-arable land, 2.2.1 (1)

pasture land, 2.2.2 (1-15)

waste land, 2.2.3 (1-2)

Animal unit month

pasture land, 2.2.2 (2)

Arable agricultural land

A-depth, 2.1.7 (1-6)

agricultural mixed use land, 1.1.4 (1)

assessed value, 1.1.3 (1)

assessed value rating, 2.1.1 (2)

calculation procedure, 2.1.9 (8)

climate, 2.1.2 (1-10)

economic factors, 2.1.9 (1-8)

final rating, 2.1.1 (2)

formulas, rules and principles, 2.1.1 (1)

land use, 2.1.1 (3)

master rating, 2.1.1 (2)

organic matter, 2.1.3 (1-6)

physical factors, 2.1.8 (1-4)

productivity rating, 2.1.1 (2)

profile, 2.1.5 (1-5)

profile adjustment factor, 2.1.6 (1)

provincial factor, 2.1.9 (8)

soil associations, 2.1.1 (4-16)

soil classification, 2.1.1 (3-16)

subsurface texture, 2.1.4 (2-5)

texture, 2.1.4 (1-5)

units of comparison, 2.1.1 (1)

Arable land - see arable agricultural land

Area - see measurement of buildings and structures

Assessed value

agricultural land, 1.1.3 (1)

agricultural land-mixed use, 1.1.4 (1)

heavy industrial buildings and structures, 1.1.7 (1)

heavy industrial land, 1.1.5 (1)

mine resource production equipment, 1.1.9 (1)

oil and gas well resource production equipment,
1.1.8 (1)

pipelines, 1.1.10 (1)

railway roadway, 1.1.6 (1)

regulated property, 1.1.1 (1); 1.1.2 (1)

Assessed value rating, 2.1.1 (2)

Associations - see soil associations

B

Base date, 1.1.1 (1)

Base land rate

heavy industrial land, 1.1.5 (1)

railway roadway, 1.1.6 (1)

waste land, 2.2.3 (1)

Bedrock, 2.1.8 (2)

Building height, 3.1.6 (1-2)

Building or structure group

definition, 1.1.2 (1)

Buildings and structures

formulas, rules and principles

heavy industrial, 1.1.7 (1); 3.1.1 (1)

measurement, 3.1.2 (1)

units of comparison, 3.1.2 (1-2)

Burn-outs, 2.1.8 (3)

C

Cabinet type meter housing, 4.1.15 (4)

Calculation procedure after RCN

heavy industrial buildings and structures, 3.1.3 (1)

oil and gas well buildings and structures, 3.1.3 (1)

Calculator method, 3.1.2 (3)

Carrying capacity

pasture land, 2.2.2 (1, 8-9)

Cathodic protection rectifiers, 4.1.20 (1)

Chemical equipment, 4.1.3 (3)

Chemical injectors, 4.1.18 (1)

Climate

arable agricultural land, 2.1.2 (1-10)

Climate Rating, 3.1.2 (3)

Closure adjustment factor

heavy industrial buildings and structures, 3.1.10 (1)

Comparable unit method

functional obsolescence

heavy industrial improvements, 3.1.9 (1)

Comparative cost factor

heavy industrial buildings and structures, 3.1.5 (1)

mine resource production equipment, 4.2.2 (1-2)
